

Program Note

Dear Friend,

In less than one year, I've been able to amass a personal net worth of over one million dollars. And I did so using a unique formula that's been proven successful week after week—month after month with no signs of slowing down.

I know this sounds crazy—but it's not.

This formula is not a scheme or a scam...and this has nothing to do with anything you'd be ashamed to be involved in. I'm not misleading you in any way. The claims I'm making are factual and they are all based on my personal experience.

Just pay those bills when it comes in!

Instrumentation

Piano (amplification required)

Fixed Media: two-channel stereo sound (playback via CD player or computer)

Equipment

Stage monitor

Two microphones/microphone stands

Two speakers/speaker stands

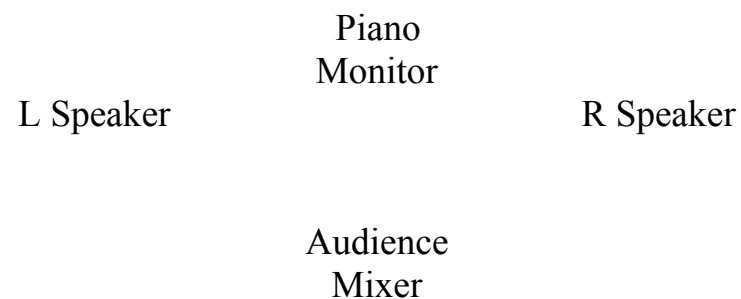

Mixer (preferably staged behind audience)

Audio cables to connect all equipment

Notes

The piano is amplified with two microphones. The signal balance between the piano and fixed media should be kept relatively equal throughout. The level of the monitor is at the discretion of the pianist. It is recommended that a sound engineer mix the audio levels in real time during a performance.

Suggested Stage Arrangement

Duration: 10'30''
